

Beyond the Codex preview

June 4, 2014

Poetry Lock by Job Koelewijn will be included in the fall exhibit *Beyond the Codex: Sculptural Book Objects from the Arts of the Book Collection*. This is a companion exhibit to the student-curated exhibit at the Yale University Art Gallery, *Odd Volumes: Book Arts from the Allan Chasanoff Collection*, on view starting in October 2014.

The Haas Family Arts Library actively supports research of the Yale University Art Gallery in addition to arts-area research by members of the Yale, national, and international communities. *Beyond the Codex* features works in the Arts Library's collections by artists selected for inclusion in *Odd Volumes* as well as artists not represented at YUAG, thus highlighting the complementary nature of the Arts of the Book Collection and the Art Gallery's Allan Chasanoff Collection.
