

Where is this?

Published on Yale University Library (<https://web.library.yale.edu>)

Where is this?

From the detailed record view, click on the blue Where is this? link to open the location page for the item or book stacks floor map, when available.

- For items in Sterling Memorial Library (SML), the floor map will list the floor and highlight the call number section on that floor where the book should be found. Printed copies of the [stack directory](#) [1] can also be found at the service desks (circulation and information) and floor maps are posted next to the elevators in the book stacks of SML.
- Items at LSF (Library Shelving Facility) or in Special Collections will not have a link to Where is this?

As always, if you have difficulty finding a book on the shelf, use the [Request recall or delivery](#) [2] link for staff search and delivery.

Example

Yale Holdings

- Location: SML, Stacks, LC Classification (New) [Request scan of article/chapter](#) [3] [Request recall or delivery](#) [2]
- Call Number: PS3515 E37 O419 1970
- Status: Not Checked Out
