Multiple Identities

Base Name Record: Linking relationship for real name to alternate names (500s are abridged for reasons of space).

Be sure to verify that the real name is established and coded as rda. Be sure to verify that the other alternate identity is consistent with and coded as rda.

In the existing NARs, dates were added to some of the alternate identity AAPs because they conflicted with AAPs for other entities, even though the "base" name AAP was established without dates.
