Single items (Leader/Bibliographic level m or a):

- **e** : Detailed date. Detailed date which contains the month (and possibly day) in addition to the year is present.
  
  **Example**: Imprint on etching “Pubd. May 27th 1795 by H. Humphrey"

- **s** : Single known date/probable date. Single known or probable year represented by four digits.
• **q**: Questionable date. For a single item when the exact date is not known but a range of years for the date can be specified (e.g. between 1824 and 1846).

**Collections (Leader/Bibliographic level c):**

• **i**: Inclusive dates of collection. Code for a span of dates. Record bulk dates, if appropriate, in 264 ‡c. For several things with one date (e.g., several photographs, same day and/or year but created separately), use i and repeat the date in both Date 1 and Date 2.

• **m**: Mutiple dates. Code for two distinct years that do not comprise a span.

| Date 1 (yyyy) /Beginning Date of Publication | Required |
| Date 2 (yyyy) /Ending Date of Publication | Required for Publication status e, q, i, or m |

The date (i.e. year) consists of four digits. Missing digits are represented by the letter u except when an item issued over a period of years is incomplete when 9999 is entered in Date 2.

For Publication status **s**, leave Date 2 blank.

If the date on the item is misprinted or wrong, put the correct date in the fixed fields and the 260 field as instructed for that element. A date in Date 1 and 2 should always match 260 ‡c.

For exact dates, put the year in Date/1 and put the month (MM) and day (DD) in Date/2:

**Example:**

<table>
<thead>
<tr>
<th>Date/1</th>
<th>Date/2</th>
</tr>
</thead>
<tbody>
<tr>
<td>1789</td>
<td>0509</td>
</tr>
</tbody>
</table>

Place of publication, production, or execution **Valid Code Required**

The choice of the MARC code from the dropdown menu is related to information in field 264 ‡a. Three fill characters (‡‡‡) may be used in place of a valid code, but their use is discouraged. When fill is used in 008/15-17, all three positions must contain the fill character.

For visual materials, if the work is a multi-country production, the code for the first country is recorded in 008/15-17. The code for the first country is repeated in field 044 (Country of Producer Code), followed by the codes for countries of other bodies involved in the production.

xx# [Place is completely unknown]
