

---

## Sample Home Page : Giving to the Library

Disable Sitewide default title heading: Structure > Context > Scrolling down to "sitewide\_default" > Edit > Conditions: Path, exclude this site "~development"

Create new Context "giving\_to\_library" for this site

- Create "giving\_to\_library\_sub\_site\_name" block, with Block body:  
" <h2 class="site-name"><a href="/development" title="Return to the Giving to the Library home page">Giving to the Library</a></h2>" and CSS class "sub-site-name"
- Clone "sitewide\_default" context, do the necessary change
  - path: only "development"
  - Blocks: Change Blocks in "Topper First" region from "Site name" to "YUL Workmark" and "Giving to Library Sub-site Name". All others are keep same with Side wide default.
- Create proper menus and blocks as required
- See more detail at "[Create Development Council Site](#) [1]".
