In authority records:
the instrumental, vocal, and/or other medium of performance for which a musical work was originally conceived or for which a musical expression is written or performed.
° May be used to differentiate a musical work or expression from another with the same title.

Currently, 382 fields are not added to authority records for authorized access points representing arrangements.

In bibliographic records:
"LCMPT and the 382 are not tethered to a descriptive cataloging standard. In other words, it's acceptable (and indeed encouraged) to add a LCMPT-based 382 whenever you would add a 'subject' heading in the current environment." Casey Mullin, MOUG-L, 6/2/2014

For manifestations: the instrumental, vocal, and/or other medium of performance embodied in the manifestation. For works and expressions: the instrumental, vocal, and/or other medium of performance for which a musical work was originally conceived or for which a musical expression is written or performed.
° May be used to differentiate a musical work or expression from another with the same title.

General guidelines for the 382 currently being followed, which may or may not be adopted/approved by LC:
Record the complete medium of performance for a single work in a single 382 field.

Provide a 382 field for each medium of performance when there is more than one work in the manifestation.

Do not include a 382 field for expressions (e.g., arrangements, etc.)

Optionally, supply medium of performance in expression authority records.

Record the names of instruments, voices, and ensembles following these guidelines:

- Record the name of an instrument, voice, or ensemble in the singular (even if there is more than one required for performance)
- Record the name of a solo instrument or voice in ‡b in the singular (even if there is more than one required for performance)
- Record the name of a doubling instrument in ‡d in the singular (even if there is more than one required for performance), following the name of the instrument to which it applies
- Record the name of an alternate instrument or voice in ‡p in the singular (even if there is more than one required for performance), following the name of the instrument or voice to which it applies
- Include the terms alto, tenor, bass, etc.
  - although these terms are omitted from the medium of performance in access points as per 6.15.1.6.2
- There is no prescribed order of voices/instruments
  - Use cataloger's judgment
  - Choose order listed or score order when feasible

Record the number of instruments, voices, and ensembles following these guidelines:

- Record the number of instruments or voices of the same type needed for performance in ‡n following the name of the instrument or voice to which it applies
- Record the number of ensembles of the same type needed for performance in ‡e following the name of the ensemble to which it applies
- Record the total number of solo instruments or voices needed for performance in ‡r
- Record the total number of ensembles needed for performance in ‡t
- Record the total number of performers needed for performance in ‡s at the end of the field

For a manifestation containing several works (e.g., an anthology or an audio recording), generally provide a 382 field for each different combination of mediums

- If this is not feasible, omit the 382 or provide a partial 382 (first indicator 1).

If considered important for identification and access, provide an additional 382 that does not apply these guidelines.

382 fields for operas (from a discussion on MOUG-L, 6/18/2015):
"[LC doesn't] have a written policy, but for the most part the LC Music Division cataloging specialists skip the 382 for operas." (Valerie Weinberg)

However, it was acknowledged that using a partial medium of performance that includes the voice parts of the major roles or soloists, the orchestra, the chorus, and the conductor, without accounting for every singer, could be useful for users searching for parts or roles for a particular voice or range.

It was noted that one cannot always consider a recorded manifestation to be authoritative enough to make a work-based judgment unless the notes were authoritative or there was a score or thematic index to back it up.

**Subfields**

Multiple mediums from the same source vocabulary may also be recorded in separate occurrences of the field if each medium is controlled by an authority record control number or standard number in subfield ǂ0

---

**ǂa**  
Medium of performance: a term that indicates the instrumental, vocal, and/or other medium of performance.  
° multiple mediums from the same source vocabulary may be recorded in the same field in separate occurrences of subfield ǂa.  
° terms from different source vocabularies are recorded in separate occurrences of the field.  
Use the term "percussion" unless cataloger judgment dictates the need for greater detail.

---

**ǂb**  
Soloist: term for a soloist (a featured instrument or voice accompanied by an ensemble; do not code a solo instrument or voice in ǂb when the accompaniment is for a solo instrument, even when the accompaniment was originally for an ensemble)  
Examples: instrumental | vocal

---

**ǂd**  
Doubling instrument: term for the instrument(s)/voice(s) a performer plays in addition to the primary instrument/voice in a musical work/expression  
° may be recorded in separate occurrences of subfield ǂd  
° may also be recorded in separate occurrences of the field if each medium is controlled by an authority record control number or standard number in subfield ǂ0.  
Examples: instrumental

---

**ǂe**  
Number of ensembles of the same type named in the preceding subfield  
° Use after ǂa (Medium of performance) or ǂp (Alternative medium of performance)

---

**ǂn**  
Number of performers of the same medium named in the preceding subfield.  
° may be omitted if the number equals 1  
° give the name of the instrument or voice in the singular  
° do not enclose the number in parentheses:  
  * violin ǂn 2 ǂa viola ǂn 1 ǂa cello ǂn 1  
Do not use ǂn if the medium includes an uncertain, unknown, or variable number of performers.  
See current practice for more than one performer on one instrument (tagged in ǂv).  
Do not include the number of ensembles in ǂn for an ensemble.  
Examples: instrumental | vocal

---

**ǂp**  
Alternative medium of performance: term for an alternative instrument, vocal, and/or other medium of performance, given as an alternative to its primary medium of performance in preceding subfield ǂa, ǂb, or ǂd.  
Record alternative instruments in one of two ways:  
1. Use a single 382 field:  
  ° record alternative instruments in ǂp following the appropriate ǂa, ǂb, or ǂd  
  ° include a number in ǂn when applicable following each ǂp.  
2. Use two 382 fields:
Medium of performance (MARC 382)
Published on Yale University Library (https://web.library.yale.edu)

° 1st 382 field: record initial initial medium of performance.
° 2nd 382 field: record alternate mediums, recording alternative instruments in ‡p.
Examples: instrumental | vocal

‡r
Total number of individuals performing alongside ensembles.
° The total number of solo individual performers as indicated in all instances of subfield ‡b needed to perform in the musical work/expression alongside one or more ensembles
° However, use subfield ‡s, not ‡r, for individual performers when no accompanying ensembles are involved.
Code ‡r before ‡t and ‡s.
Examples: instrumental | vocal

‡s
Total number of performers needed to perform the musical work.
‡s follows the last ‡a, ‡b, ‡d, ‡n, or ‡p
° Do not use ‡s when:
  ° the medium statement is partial (1st indicator 1)
  ° one or more ensemble terms are present in the medium statement
  ° when the medium is known, but the exact number of performers is unknown or variable
Examples: instrumental | vocal

‡t
Total number of ensembles needed to perform the musical work.
When known, record the number of ensembles in ‡t following the last ‡e or ‡r, but before ‡s
Examples: instrumental | vocal

‡v
Free-text note for information that is not otherwise in the subfields of the field when further detail is desired.
° may contain a description of the relationship between an alternative medium of performance and its primary medium of performance, or other textual information
Place ‡v immediately following the subfield to which it applies:
1. following ‡a, ‡b, ‡d, or ‡p when describing the nature of a specific medium component
2. following ‡n or ‡e when describing the numbering of a specific medium component
3. following all other subfields but preceding ‡2 when describing the performing forces as a whole
° use method 3 when in doubt
From Hermine Vermeij on PCCLIST, 1/21/2014:
Situations in which ‡v would be useful, when the medium isn’t clear from the title, the preferred title, or the 382 field, if present:
° giving voice type details for vocal works (SATB, SSA, etc.)
° explaining complicated doubling or instrumentation that can’t easily be expressed using controlled vocabulary
Examples: instrumental | solo vocal | other vocal

‡2
MARC code that identifies the source of the term in
subfield ‡a when it is from a controlled list.
  ° use ‡2 lcmpt for Library of Congress Medium of Performance Thesaurus for Music [16] (LCMPT)
  ° For guidelines on the application of LCMPT, see Provisional Best Practices for Using LCMPT [17]
  → LCMPT terms are now used in the medium of performance [2] in authorized access points
  ° However, the exception g) at 6.28.1.9.1 still applies to instruments: omit range for an instrument:
    clarinet not bass clarinet
    But include it for a vocal range:
    soprano voice not soprano

The names of some instruments and voices vary from past practice in the 382 field and from RDA:

382 0_ performer ‡2 lcmpt
  ° the definition of performer is "an unspecified participant in a musical work," which could apply to an unspecified instrument or unspecified vocalist.
382 0_ instrument ‡n 6 ‡s 6 ‡2 lcmpt
  ° use "instrument" for an unspecified instrument; this may be indicated by the misleading word "voices" in an authorised access point for a 16th- or 17th-century work;
    e.g., Fantasia, ‡m voices (6)
    ° "voice" in this case should not be confused with an unspecified singing range, for which the term "singer" is used

Keep in mind that there may a difference in the terms that are appropriate as an attribute of the work and those that are appropriate for an access point.

In the authorized access point, "instrumental ensemble" is used. There are two 382 fields, one in which "instrumental ensemble" is used and another in which each instrument in the instrumental ensemble is listed:

382 0_ ‡b trumpet ‡n 1 ‡a instrumental ensemble ‡e 1 †r 1 †t 1 ‡2 lcmpt

Two or more of the same instrument, only one of which doubles another instrument

Z1 [12] says: "6) Record doubling instrument(s) in ‡d following the appropriate ‡a, according to cataloger's judgment." This does not address the situation in which only one of two or more of the same instrument doubles on another instrument. For example, two flutes, one of which doubles on piccolo has been coded one of the following ways:

- flute ‡n 1 ‡d alto flute ‡n 1 ‡a oboe ‡n 1 ‡d English horn ‡n 1 ‡a clarinet ‡n 1 ‡d bass clarinet ‡n 1 ‡a viola ‡n 1 ‡a cello ‡n 1 ‡a double bass ‡n 1 ‡s 6 ‡2 lcmpt

More than one performer on one instrument

LCMPT does not have terms for more than one performer on one instrument. For keyboard instruments (including percussion keyboard instruments), current practice is to use ‡n to indicate the total number of performers required for that instrument and ‡v to indicate how hands are required:

Vocal examples

The following examples are being revised to conform to LCMPT.
The term "singer" is the LCMPT form for a performer who uses his or her voice to produce musical tone.
The LCMPT term "voice" is used for an unspecified vocalized part, including speaking voice and vocal percussion.

Examples of numbers in ‡n and ‡s for voices

Choruses:

As of May 2021, vocal range has been separated from that of gender of the singers in terms for choruses: mixed chorus: a chorus comprising adult voices singing both higher (soprano and/or alto) and lower ranges (tenor and/or bass)
women's chorus: a chorus comprising adult soprano and/or alto voices identified as women's voices
treble chorus: a chorus comprising soprano and alto voices of unspecified age or gender
men's chorus: a chorus identified as comprising adult male voices
tenor bass chorus: a chorus comprising adult voices of unspecified gender singing lower ranges (tenor, baritone, and/or bass)
