

When to bind two scores together

[Music Cataloging at Yale](#) [1] ? [Bindery procedures](#) [2]

When music for two or more instruments is issued as two scores and the scores are **not** issued together (e.g., the 300 field says "1 score") follow these instructions:

M1011, M1111:

When we get two 2-piano scores, they should never be bound together.

When we a solo piano part and one 2-piano score, they should be bound together.

Other class numbers:

When music for two or more instruments is issued in scores published singly, and we purchase enough for performance, bind all together. For example, when we buy two copies of a score for two violins, the 300 field will say "1 score." Assign only one barcode, even though we have two copies.

Indicate that the two scores are bound together:

Bibliographic record:	Holdings:
Add a 590 field: 590 __ MUS: Copy 1-2 bound together. OR 590 __ MUS: Copy 1-2 in 1 binding.	Add a universal message in \$z the 852 field: 852 00 ... \$z 2 copies in 1 binding

In the past, there have been several ways of noting this:

Piano concertos
