- Create Development Council Content Type, with additional fields for "Member Image" and Photo Description", set these two fields "Enable" using CCk blocks and hidden in "Manage Display" field
- Create "development_council" context:
  - Path "development/yul_council"
  - Blocks > Content: "Field: field_title" ; "Field: body"
  - Blocks > Sidebar Second: "Field: field_council_member_image" ; "Field: field_council_photo_description"
- Later, put above two fields (CCK block) directly to "Sidebar Second", the development_council" context no more needed.
