852 Subfield z Examples

Note: Although these call numbers represent actual records in Voyager, the copy-specific information may not be represented in an 852 \ddot{z} on the actual Voyager records.

As always, enter subfields in the following order: \ddot{b} \ddot{k} \ddot{t} \ddot{h} \ddot{i} \ddot{m} \ddot{x} \ddot{z} .

In this document, information as recorded in NOTIS is denoted by plain text that looks like this

while the corresponding information in Voyager is recorded

In	a	table	that looks like this.
