LSF location code

For: YULCAT-L
By: Joan Swanekamp
Date: April 10, 2003

Dear Yale cataloging staff,

This is a reminder that when you are cataloging materials for the Library Shelving Facility, you must use the **home location** Voyager field 852 ¢b. Please do not use the location lsf or any lsf variations in the location at the point of cataloging. This information is added by LSF staff through a special program at the actual time of transfer. If you have any questions, please let me know.

Joan Swanekamp
Chief Catalog Librarian
