

Deleting Unwanted OCLC Records from Your Voyager Import File

This document describes two methods for deleting unwanted OCLC records in your Voyager import file. You can leave your Voyager Cataloging client running for either method.

Method 1.

Your Voyager Cataloging Client is running. You have several OCLC records in your import file that you do not want to use.

The screenshot shows a window titled "C:\Voyager\Catalog\OCLCImp\Import.dat". Inside the window is a table with four columns: "Seq #", "ID", "Type", and "Title/Heading". The table contains four rows of data. The first row is highlighted in blue. Below the table is a horizontal scrollbar. At the bottom of the window are two buttons: "OK" and "Cancel".

Seq #	ID	Type	Title/Heading
1	ocm22543246	am	Visi lieti, visi vēji : autobiogrāfisks atskats / Pēteris Lūļaks ; dienasgrāmat...
2	ocm06121787	as	Welding and metal fabrication.
3	ocm03188434	as	Forestry & British timber.
4	ocm05616274	am	Carnival and coca leaf : some traditions of the Peruvian Quechua Ayllu / [e...

Click: "**Cancel**"

Leave Voyager running.

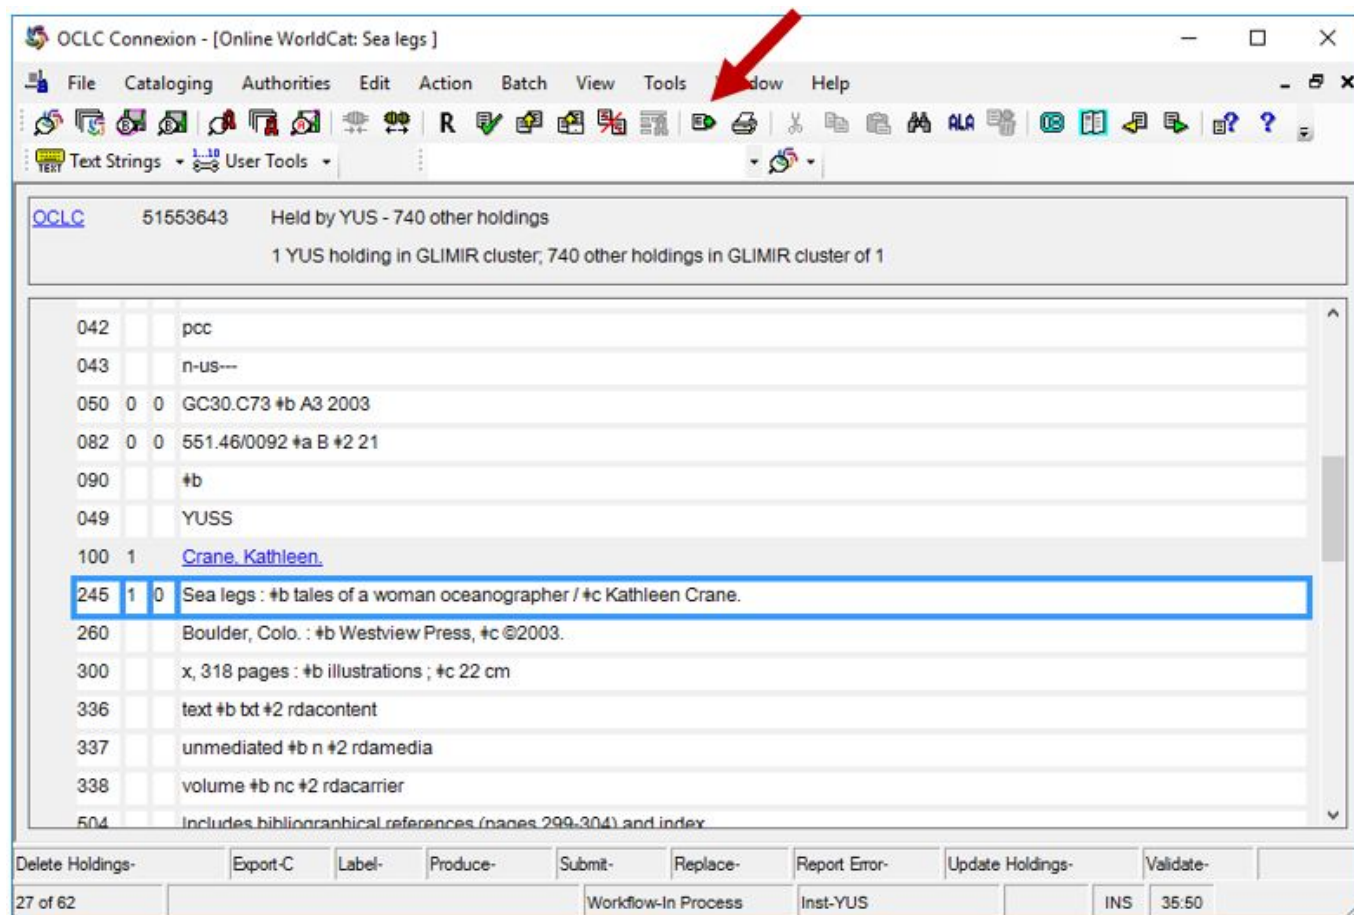

If your OCLC Connexion client is still open, logoff OCLC and close your OCLC Connexion client.
The OCLC Connexion client should be completely closed.

Then, re-launch the OCLC Connexion client again, and logon.

Search for the next title you wish to catalog.

Go to “Record”,

Go down to “Import”,

Select “From Previous File”

Voilà! The unwanted records are gone, and the record you now want to import appears.

Method 2.

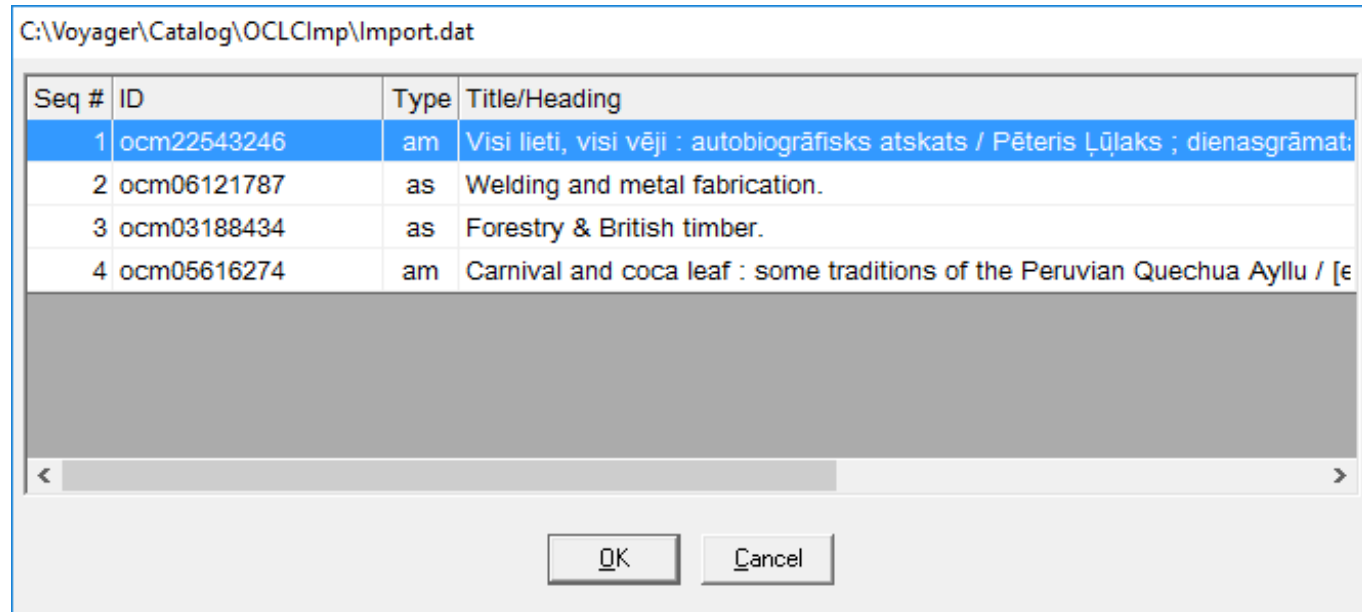

WARNING: This method is a bit trickier. You can accidentally delete your OCLC import folder. If that should happen, you can ask your supervisor to recreate it.

Double-click on your "OCLCImp" folder to get to your "Import.dat" file.

The "import.dat" file only appears in the folder when there are OCLC records waiting to be imported into Voyager. In this case, the file contains OCLC records you do not want to import.

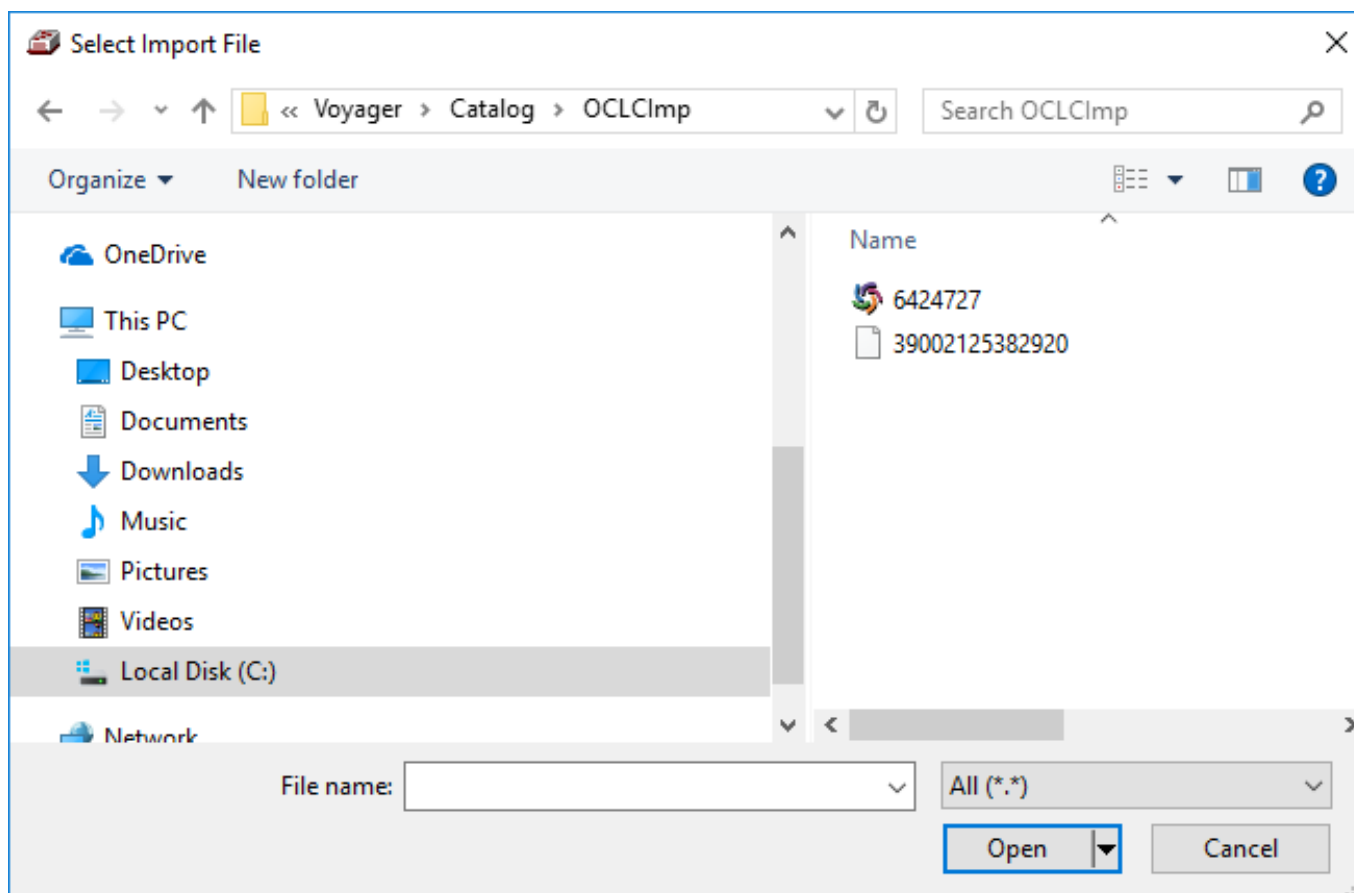

To delete these records,
Select the "Import.dat" folder.
Press the "Delete" key on your keyboard.
