

Apply to be a DH Fellow

October 21, 2016

Each semester, the Digital Humanities Lab appoints one or more Digital Humanities Fellows to assist with courses that have a strong digital humanities component. These positions provide semester-long support for graduate students to engage with DH methods and theories in a classroom setting. DHLab staff will work with fellows to design DH assignments, arrange access to electronic content, and provide specialized technical training. Visit the [DH Fellows page](#) [1] to learn about our current recipients and their courses!

For more information and to apply, please visit our [DH Fellows Application page](#) [2]!
