Introduction to Story Maps: Combine Narrative and GIS in one Platform

October 17 from 2:00-3:30pm in Bass Library, L06

Learn how to combine texts, images, and videos alongside maps using Esri's free Story Maps platform. In this workshop, participants will design a web-map, explore different Story Maps templates for showcasing research, and develop best practices to avoid copyright infringement.

Computers and sample data will be available for use. Participants are also welcome to bring their own data.

The workshop is open to Yale students, faculty, and staff. To register, please visit the [YUL Instruction Calendar](#) [1].

Instructors: Catherine DeRose (DHLab), Joan Emmet (YUL), Miriam Olivares (GIS)
