Introduction to Story Maps: Combine Narrative and GIS

March 7 from 2:00-3:30pm in Bass Library, L06

Learn how to combine texts, images, and videos with maps using Esri's free [Story Maps](#) [1] platform. In this workshop, participants will learn how to design a web-map with sample data, explore different Story Maps templates for showcasing research, and develop basic strategies to avoid copyright infringement.

Computers and sample data will be available for use. Participants are also welcome to bring their own data.

The workshop is open to Yale students, faculty, and staff. To register, please visit the [YUL Instruction Calendar](#) [2].

Instructors: Catherine DeRose (DHLab), Joan Emmet (YUL), Miriam Olivares (GIS)
