Statlab Hosted Computing Environment

Managed By: Steven Wieda
YUL Service Domain: End-Point Services
Alias: anaconda, python, spyder, jupyter, ibm spss statistics, spss, mathematica, r, stattransfer, argis, esri, ibmspss amos, matlab, minitab, sas, stata

Short Description: Statlab_APPS is a research computing environment for Yale faculty, students, and staff that provides up to 10 concurrent users with access to specialized software including ArcGIS, Mathematica, IBM SPSS, and Stata.

Description:
Statlab_APPS is a research computing environment for Yale faculty, students, and staff that provides up to 10 concurrent users with access to specialized software including ArcGIS, Mathematica, IBM SPSS, and Stata without the need to download or run the software on their local machines. This service was established around 2015-2016 by Statlab staff as an alternative to lab computing spaces. This service provides users with

1. More computing resources for processor, memory, and space intensive operations; and
2. A dedicated space that can be accessed 24*7 for uninterrupted execution of applications and tasks.

Visibility: No visibility restrictions

Who is eligible to use this service offering?
Faculty
Students
Staff

Affiliations that can use this service offering: Employees
Faculty
Staff
Students

How do I get it?
Send an email to statlab@yale.edu with the following information:
