Lunch & Learn: Technology at the Yale University Library

Register now to learn about digital initiatives at the Yale University Library in this talk at 25 Science Park (room 125) on Monday June 24, 12-1pm. Michael Dula, Yale Library's Chief Technology Officer, will present an overview of IT initiatives at the Library, including website redesign, scholarly publishing, improved discovery and delivery systems, and digital collections infrastructure. Michael also will discuss common themes that drive their technology strategy. All are welcome to attend, but registration is required.
