Bass Media Lab Petting Zoo!

Looking to gain some experience with professional-grade media equipment? There is now a Bass Media Equipment Petting Zoo in the Bass Media Lab (BML)! Specialized equipment is checked out by the media techs that staff the BML so that patrons who are interested in some of the more specialized equipment might have some practice time with it before they check it out for themselves. For example, this week the Sennheiser Boom mic is being featured.

Media techs staff the BML from 3-9pm during the week and on Sunday, and 10am-6pm on Saturdays. Check with the staff in the Bass Library for details.
