

High Street entrance of Sterling Memorial Library to close until August 22nd

The High Street entrance of Sterling Memorial Library (SML) will be closed until Friday, August 22, to accommodate construction activity related to the restoration of the SML nave. The Wall Street entrance to SML will remain open and will serve as the primary entrance and exit for the Library. The one exception will be for anyone requiring wheelchair access – they can continue to use the High Street entrance, where a security guard will be available to assist. We apologize for any inconvenience caused by this closing of the High Street entrance as the nave restoration project enters its final weeks. For any questions about the closing or the nave restoration in general, please contact Kendall Crilly (kendall.crilly@yale.edu [1])
