

Library staff welcome Freshman Scholars at Yale

July 8, 2015

This week librarians and archivists will meet this year's [Freshman Scholars at Yale \(FSY\)](#) [1]. FSY provides a cohort of incoming first-year students with the opportunity to engage early on in the Yale experience by living and studying on campus for 5 weeks in the summer. They will receive a general overview of Yale's library system and an introduction to college-level standards of research. They will also meet with Manuscripts & Archives staff for a hands-on session with primary sources, and will be introduced to their personal librarians.
