

Japanese lesbian, gay, bisexual, transgender, and queer collection

March 2, 2017

As some of you have been informed via the Facebook announcements a while ago, we have completed processing of a collection of ephemera (brochures, flyers, advertisements, pamphlets) material related to LGBTQ communities in Japan. Below please find a link to the finding aid and a description of the materials.

This collection was prepared in collaboration with **Yoshie Yanagihara** of Tokyo Denki University and **Tetsuyuki Shida** of Waseda University, with assistance from **Mary Caldera** of Yale Manuscripts and Archives, and **Caitlin Casiello**. We would like to thank each of them for their invaluable help and insight.

We are also looking to expand and improve the collection in the future so any feedback or directions for further exploration from researchers would be appreciated.

Japanese lesbian, gay, bisexual, transgender, and queer collection

Finding Aid: <http://hdl.handle.net/10079/fa/mssa.ms.2067> [1]

The collection consists of fliers, newsletters, brochures, and other educational material published and distributed by Japanese lesbian, gay, bisexual, transgender, and queer (LGBTQ) organizations, primarily from the Tokyo area. Materials focus on gay and bisexual men's health, sexually transmitted infection (STI) prevention and testing, and
