June 28, 2018

In a new Yale history exhibit, photos, letters, artifacts, and other archival material bring alive the stories of notable Yalies, including:

- **Ebenezer Baldwin.** He was a 1763 graduate who died serving in the Revolutionary War.
- **Elizabeth Deering Hanscom** (pictured at left). She was the first woman to earn a Ph.D. from Yale.
- Renowned “baby doctor” **Benjamin Spock.** His 1946 book on childcare became a bestseller.
- **Polly Stone Buck,** wife of Branford College’s second master and Yale provost Norman Buck. She corresponded with Yalies serving in World War II.
- **Joseph Andrew Johnson III.** He was the second African American to earn a doctorate in physics from Yale.

The exhibit is on display in the Memorabilia Room at Sterling Memorial Library, 120 High St., June 25-Oct. 5.
