We miss casually flipping through books and sharing recommendations face-to-face just as much as you do, so we've taken our book display and made a virtual pop-up! From Black History to Asia Pacific Heritage and LGBTQ+ Pride, each month we'll share a curated selection of items from the collection along with highlights from the Haas Instagram. Just click on the tab for the month and start scrolling [here](https://guides.library.yale.edu/haas-book-display) [1].
