
Yale Reaches Out to Future Scientists – a media exhibit at the Center for Science and Social Science Information

You are cordially invited to attend a reception on March 27th from 3:30-5:00 pm at the Center for Science and Social Science Information (CSSSI) to celebrate the new media wall exhibit “Yale Reaches Out to Future Scientists.” Refreshments will served. Directions to the CSSSI can be found at: <http://csssi.yale.edu/directions> [1].

This exhibit features color images and videos of activities from seven Yale science outreach programs including: the Yale Physics Olympics, Girls’ Science Investigations, the S.C.H.O.L.A.R. Program, Pathways to Science, Science on Saturdays, Math Mornings, and the Peabody Museum of Natural History’s Evolutions. These programs are created and managed by Yale faculty members, staff, graduate students, and volunteers. Participants in the programs include Connecticut middle and high school students and other members of the public. The exhibit was designed by Mark Saba, curated by Lori Bronars and Gwyneth Crowley, and is on view from March 8th through October 3rd, 2013, at the CSSSI’s 24-hour space.
