Scope and Content

The collection is comprised of 19 scrapbooks which include the following: King publications, reviews of King publications, letters from individuals responding to publications and reviews, and articles on subjects of interest to King. The subject scrapbooks focus on Baptist history in Rhode Island and Massachusetts, history of First Baptist Church of Providence, and the following general categories: devotional, temperance, illustrations, social questions, the Bible, missions, doctrinal issues, and poems and hymns.
Scrapbooks
The scrapbooks consist of articles by King, reviews of his articles, and articles on various subjects collected by him. In the volumes of his own articles, and reviews of his articles and books are interfiled letters from individuals responding to the articles and books. Generally, the letters are interfiled with the articles they refer to. When letters appear in a volume, the names of the writers are listed in the order in which the letters appear in the volume. The letters are all about King's writings, except when noted. The scrapbooks run in chronological order, roughly.
