Scope and Content

The Oliver Alden Taylor Papers (1828-1838) probably relate to Taylor's work at Andover, as a student at Andover Theological Seminary and later as a resident of Andover engaged in literary work. Since most manuscripts are undated, collection dates are assigned according to his Andover period. The collection is arranged according to the following categories: student addresses, student reading notes, an unpublished manuscript "History of the Pulpit," and a draft of preface to Catalogue of the Library of the Theol. Seminary in Andover, Mass.
