

# EXAMPLES OF BIBLIOGRAPHIC RECORDS FOR NUMERIC DATASETS

## INTRODUCTION

Datasets are cataloged based on the type of data contained, e.g. geospatial, numeric, and textual data. For sets containing more than one type of data, determine the primary type and catalog according to the appropriate guidelines on [Cataloging at Yale](#).

520 \\\$a The sample design for all nine nations in the Islamic survey is generally identical to that used by Gallup and virtually all other research companies for surveys based on personal-in-home interviews. It is designed to measure the views of the entire national population of each country included in this project, urban and rural, citizen and non- citizen, Muslim or non-Muslim, and is based on a multistage probability sample. Total sample 10,004: Pakistan 2,043, Iran 1,501, Indonesia 1,050, Turkey 1,019, Morocco 1,000, Kuwait 790, Jordan 797, Saudi Arabia 754.
